# VIRTUO - MANAGEMENT SYSTEM

The **Virtuo** platform is an essential part of a service provider's strategy to reduce operational costs, develop revenues, and increase customer satisfaction while deploying Mediatrix products.

## A COMPLETE AND INTUITIVE CLOUD SOLUTION

The **Virtuo EMS** features unit management and remote configuration, including Zero-Touch Provisioning, redirect server, firmware upgrades, licence activation, and more.

- Easy and hassle free unit configuration.
- Redirect Server and automatic pre-loaded unit information.
- Zero-Touch Provisioning using intuitive configuration template mechanism.
- Mass management through a friendly interface for a global vision of the operation.
- Remote and planned firmware upgrades.
- Detailed information about the status of all your units.
- Multi-level accounts, role based access privileges, and audits logs.

# Virtuo EMS
